METAL FIX

Repairs:

**CRACKED & POROUS SOIL PIPE
BOILER & RADIATOR SECTIONS
SPLIT FITTINGS - STRIPPED THREADS
APPLICABLE ON ALL DEFECTIVE METALS**

Ask a Master Plumber about Black & White Metal Fix.

Since 1917, plumbers have relied on Black & White Metal Fix to fix cracks in all metals. Unlike epoxy, which can take several minutes to apply and hours to cure--this mineral composite repairs cracks in minutes.

Simply heat the object to be repaired with a torch to a few hundred degrees, and press Black & White Metal Fix into the crack. A "wetting transition" occurs--the metal-fix flows into the crack--and creates a seal on the inside AND outside. Try that with epoxy!

**APPLIED ON SOIL PIPE - CAST IRON BOILERS -
